

Glory to the King

In Jesus' Name

I have tried
I don't know how
If I could do it'd be done by now
To fix myself
To save my soul
I'm full of wounds
And I can't fill the holes

That's why I'm here
I need a Saviour
I need a Saviour
My tongue will confess
Jesus do the rest
Jesus do the rest

In Jesus' name I now proclaim
He died for me and He rose again
In Jesus' name I'm free to claim
The blood of Christ over my shame
In Jesus' name
In Jesus' name

I cut all ties that bind me still
All curses and witchcraft into line with God's will
I close all doors
I turn away
All legal right I sign to Jesus' name

I forgive and forget
the living and the dead

the living and the dead
I humbly let go of all the hate in my soul
All the hate in my soul

In Jesus' name I now proclaim
My sinful heart needs Elohai S'lee kloth's reign
In Jesus' name I now proclaim all ground lost or stolen back again
In Jesus' name
In Jesus' name

Lord we claim the right standing with You
That Jesus gave us
The same Glory You gave Him
He is in us as You are in Him
May we stand in the perfect unity
That Jesus prayed for us
That the world will know that You sent Him
And that You love us as much as You love Him
We will fear no one but You
Though we die
Though we hunger
Though we face danger
We will fear no one but You
And through all this,
Overwhelming victory is ours
Through Christ Jesus
Who loves us

In Jesus' name we now proclaim
Glory to the highest Elohim
In Jesus name we now proclaim
The greatness of the God who reigns
In Jesus' name
In Jesus' name
