

The Presence Of The King

No Love Like You, Love

Jesus, thank You for loving me
I shudder to think where I could have been
Even before I was born into this world
You saw me and You loved me

And when the clock that is our universe
Runs out finally, I know
You'll be there for me

There is no love like You
There is no love like You
There is no love like You love Jesus

Hell knew what You came to do
And tried tempting You
To not follow through
You came for the Keys
That we gave the enemy
Oh he could not foresee
That Love would be the weapon
To vanquish him

So the spotless Lamb laid down His life
God in man disguised
The Father's highest sacrifice

There is no love like You
There is no love like You
There is no love like You love Jesus

I've been holding back
Hiding in fear - I thought was safety

Been dying to survive
At the altar of self sufficiency

Oh Lord forgive me
For doubting You'd provide a way for me
After what You gave on Calvary

There is no love like You
There is no love like You
There is no love like You love Jesus

There is no love like You
There is no love like You
There is no love like You love Jesus

There is no love like You
There is no love like You
There is no love like You love Jesus

There is no love like You
There is no love like You
There is no love like You love Jesus
